

## Your finances, applicable to *your* business. A clear path to what comes next.

Most small business owners know their craft, but feel lost when it comes to what the numbers actually mean. I bridge that gap. No judgment, no jargon. Just practical steps you can act on starting today.

### WHAT I DO

- Break down your financials into plain language, not accountant-speak
- Identify 2–3 high-impact changes specific to your business
- Build a tactical 30 / 90 / 120-day action plan you can execute yourself
- Teach you to read your own numbers so you stay in control

### MY PROMISE TO YOU

I don't judge where you've been or what your books look like. Paper receipts or spreadsheet mess, I don't care. I care about one thing: **getting you to the next level.** Growth, stability, or cutting costs, we find the path together.

🔒 NDA signed before we begin. Your business stays your business.

### YOUR ACTION PLAN ROADMAP

30

DAYS

Quick wins you can start immediately

90

DAYS

Momentum-building moves with measurable results

120

DAYS

Longer-term shifts that stick

🗒 Every check-in includes dashboard access, so you can see where things stand anytime.

I'm not just working with individual businesses. I'm working to **build the Alton ecosystem.** Small business owners here can bridge the wealth gap and grow together. This isn't a transaction. It's a relationship with your community.

### GETTING STARTED

- 📝 **Sign NDA:** your info stays protected before we look at a single number
- 🗨 **Interview:** a conversation about your business, goals, and where it hurts
- 📁 **Collect data:** send over your financials, however organized (or not) they are
- 🕒 **2-week turnaround:** full analysis plus a written action plan
