TRAINING FOR MISSION-DRIVEN TEAMS

Change Management Training for Nonprofits

Your team is already stretched. When leadership changes, funding shifts, or a program gets restructured, nonprofits rarely have room for training that doesn't stick. Change Maven builds practical, right-sized training around **your** organization's real transitions — not a generic corporate curriculum — so your people walk away better equipped to handle what's next.

HOW WE DELIVER IT

- **Team-building events** — built around a real challenge your team is facing, not icebreakers
- **Half-day and full-day workshops** — focused, in-person sessions on a specific topic
- **Recurring cadences** — quarterly or monthly sessions that build on each other over time
- **Multi-part series** — a connected sequence of sessions working toward one outcome

TOOLS WE BRING TO THE TABLE

- **Individual personality assessments** — how each person on your team works and communicates
- **Leadership assessments** — strengths and blind spots for anyone leading a team or program
- **Workplace assessments** — a clear read on how your organization actually operates day to day
- **Team dynamics diagnostics** — how your team works and makes decisions together

TRAINING AND DEVELOPMENT TOPICS

Leadership & Strategy

Generational gaps in the workplace
Leadership
Team dynamics
Strategic thinking

Process & Continuous Improvement

Framework application
Project management
Lean / Six Sigma (certifications and facilitated projects)
Continuous improvement

One-on-One Coaching

Leadership
Strategic planning
Succession planning
Personal growth plans

*We coach your team through the change, we don't just hand you a framework and walk away. Every session is built around **your** mission, your people, and the transition you're actually facing.*

BOOK A CALL TO TALK THROUGH YOUR TEAM'S NEEDS

From where you are, to where you need to be.
